

HOUSTON...We Have Ignition!

Frank Hawley's Drag Racing School returns to Royal Purple Raceway on September 24-25 to conduct its popular two-day Super Class – and there are still openings!

"Royal Purple Raceway in Baytown has been one of the favorite stops on our tour," said Hawley. "It's an awesome facility that hosts the NHRA O'Reilly Auto Parts Spring Nationals each year, which makes it one of NHRA's premiere facilities. Seth Angel and staff always have things prepared properly for our drivers. Hotels and restaurants are close by. New visitors to the area may also want to visit Johnson Space Center and Battleship Texas! It's just a great place to go."

The two-day Super Class allows drivers of all backgrounds the opportunity to earn their NHRA competition driver's license in the school's 572/720R Chevrolet-powered Super Comp Dragsters or Super Gas Firebirds. Some drivers even obtain both licenses during the class. Current drivers can bring their own car to the course, too. The course also includes Hawley's Reaction Time Clinic lectures.

You don't need any previous racing experience to take the class," continued Hawley. "In every class we've got drivers that have never raced sitting next to drivers that have won big money bracket races. It's a great mix, with the rookies being able to benefit from some of the veterans' backgrounds. But not everyone needs a license; some just do it for fun and excitement."

"We are just a few weeks away from coming to Royal Purple Raceway, so if driving a dragster is on your 'bucket list,' give us a call to talk about an experience you'll never forget," Hawley said.

Those new to drag racing will learn basic techniques and procedures, while more experienced racers will master the mental challenges that separate winners from losers. Age, size and gender are immaterial to participate in the Super Class course, as the race car puts everyone on an equal footing.

As Frank Hawley's school is the very first school to provide drag race driver training, the amount of knowledge you'll gain through this program is unparalleled. Drivers will sharpen their skills and gain confidence at handling these lightning-quick machines. Frank Hawley teaches students how their minds and bodies work while training each class to think, act and perform like champions.

To view our Super Class video or obtain more information on all available classes, dates and locations for Frank Hawley's Drag Racing School, visit the school's website – www.frankhawley.com - or call 866-480-7223 (Outside U.S. 678-804-8835). The school's also on [Facebook](#), Twitter [@Frankhawleydrs](#) and YouTube!

A decision to attend Frank Hawley's Drag Racing School is an easy one.

"I am often asked how come it looks like I know what I am doing in a fuel funny car and my answer is 'I listened to everything Frank Hawley told me.' I do not have natural talent. Frank's instruction on how to drive a Super Comp car is exactly what you need to drive a Funny Car. If you have the desire and listen to Frank, you too can drive any type of race car. Honestly, I think the classroom part of the course is much more important than the racetrack part of the course. He is the most thorough teacher I have ever met." – **NHRA Funny Car Driver Robert Hight**

"The information I received at the School from Frank has improved my life professionally and personally. Everyone that wants to improve their mind and their skills should take this course." – **NHRA Top Fuel World Champion Antron Brown**

"I started at Frank's in his Alcohol Funny Car class. It was a great program and got me started in the right direction. I'd recommend his course to anyone. I always say you're only as good as the people you surround yourself with, and Hawley's School is a heck of a place to start." – **NHRA Top Fuel Driver Tony Schumacher**
